

BLAIR & SONS CO., INC.

Project Profile
*Renovations for
the Department of
Physiology*

The Johns Hopkins University
School of Medicine

This project included the demolition and reconstruction of 19,000 SF of laboratory and office space in three building at the Baltimore campus. New conference rooms, laboratories, cold rooms, offices and support areas were created.

The project featured new and revitalized Max Lab casework. Some existing Max Lab casework was removed from the site for electrostatic painting and preparation to be interfaced with the new casework as well as new medical hoods and lab equipment.

New mechanical, electrical and fire protection systems as well as extensive drywall work and new finishes were included in the scope of work. The value of this project was \$2,100,000.
